**Subject:** GIS Mapping of Manholes

Glen,

Good to see you yesterday. In speaking with my GIS Coordinator, I don't think that there will be any problem with us performing this mapping work for the HOVMSD as discussed.

I will add the project to our list of Technical Assistance requests for 2016. Our Steering Committee will be reviewing these in about 2 weeks to approve them for inclusion in our formal 2016 Work Program.

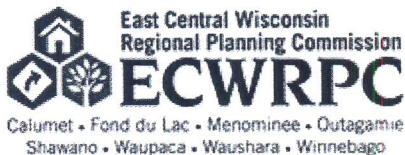

I'll touch base with you prior to, or just after, Thanksgiving to confirm that we can do it and we can talk scheduling for the project as well.

All the best,

- Eric
