Subject: RE: [External] Potential FGD study - update

Glen,

Thanks for the note. Greg has been trying to get together with USGS on the scope, but that has been delayed due to a busy Spring by both parties. Greg's project ends this week, so he is going to get back to this, and plans to contact you next week about visiting your sites. I am going to be mostly out of the office on travel from about June 8 through June 25, so I am hoping we can move things forward and have a scope put together by the end of June.

Thanks,

Ken

Subject: [External] Potential FGD study - update

Ken,

Is there anything new to report on the status/scope/timeline, of a potential research study by EPRI on the use of FGD, on Heart of the Valley MSD farmlands?

Glen
