**Subject:** Sludge Hauling Agreement

Good Morning Timothy;

The District has a contractual agreement with United Liquid Waste (ULW) for the hauling and disposal of the treatment plant bio-solids. The agreement is for the period from 2013 through 2017.

The District is disappointed with the performance of United Liquid Waste as to the timeliness of providing the required service to the District to date. And with the failure of ULW to inform the District when this year, and/or, if they will be able to provide the services called for in the agreement for this year.

Your firm prepared the agreement document between ULW and HOV. Would you please review the agreement and advise the District of its options.

Please contact me with any questions or directives.

Thank you.

Dave,

Attached is a copy of a page from one of HOV's pre-treatment permits with language to limit discharge strengths. Metals are listed and limited in concentration. Paragraphs 4 and 5 are general, but limit discharges that would have an adverse effect on treatment plant operations or bio-solids disposal.

Take a look at the language and call me if you wish to discuss the issue farther. The issue can be brought up at the Commission level if you feel it is warranted.

Respectfully,

Glen

Jessica and Jeremy;

On behalf of the Heart of the Valley Metropolitan Sewerage District Commissioners and Staff, I wish to express our appreciation for your efforts in assisting with an understanding of the Water Quality Based Effluent Limit (WQBEL) and Total Maximum Daily Load (TMDL) issues facing the District.

I also wish to extend a sincere appreciation for your extreme efforts in producing a Water Quality Trade Plan and project design for the wetland basin project to be created on District farm property. This project and plan will provide needed time for the District to investigate the various options available to the District for future long term compliance with the QWBEL.

The District hopes we can continue to work together toward achieving that goal.

Sincerely,

A handwritten signature in black ink that reads 'Glen Geurts'.

**Subject:** Chlorides & CSWEA

Good morning Dave,

The information on contacts for the Central States Water Environment Federation contacts can be found at [www.cswea.org](http://www.cswea.org)

The snail mail address is: CSWEA 1021 Alexandra Blvd, Crystal Lake Ill. 60014

The present chairman is Alan Grooms.

In Wisconsin, a good contact would be Tom Mulcahy, Mulcahy Shaw Water. N57 W6316 Center Street, Cedarburg, WI 53012. Email: [tmulcahy@mulcahyshaw.com](mailto:tmulcahy@mulcahyshaw.com) Phone: 262-241-1199

These contacts should be able to assist you with your inquiries on chloride issues, and the potential for inclusion of chlorides in future Education Seminar or other events sponsored by Central States.

Glen
