No site visits are required.

Periodic Grease Trap & Lateral Inspections:

As part of the Village's continues maintenance and inspection of the sanitary sewer system, we recommend that the downstream manhole from the following businesses be periodically inspected.

The Lox Club
Rico's Family Restaurant (Former Kim's Place)
Jerry Kamp's Bar
Mill Town Still and Grill

Village of Kimberly Grease Trap Inspections Summary Report January 31, 2017

Summary of Site Visits and Correspondence:

Little Caesars: We forwarded a letter to the local ownership of Little Caesars with a request to attend the February Commission meeting and explain any issues they have been having in regards to the timely cleaning of their grease trap and submittal of the required documentation. This came after the failure of site visits in November and December to produce any results. The grease trap was cleaned and the documentation submitted shortly thereafter.

Makers Bar and Grill: The former Makers Bar and Grill has a new owner and will reopen in February. We will make contact with the owner and get them scheduled back into the FOG Control Program.

Subway: On January 27, 2017, we visited the Subway store, as they were past due for their annual cleaning. The store manager referred us to the business owner, who indicated that he cleans the trap when the sewer lines start draining slower. We explained to him that slow drains would indicate that the grease had moved into the sewer lines and, by that time, the grease trap was no longer functioning efficiently, if at all. He agreed to schedule the cleaning immediately and adhere to the annual cleaning schedule.

Reminder Letter to Send:

Hilton Garden Inn
Hitters
Hong Kong Buffet
