1. 12:00 Noon. Call to Order – Roll Call

President Casper called the meeting to order at 12:04 p.m.

2. District Director Brian Helminger; HOVMSD Annual Update to member communities

District Director Helminger welcomed Donohue and the member community attendees. Helminger discussed HOV initiatives and upcoming projects for the interceptor sewer and treatment plant for 2017. He also provided details on the pretreatment program, FOG program, and mercury reduction efforts. Helminger then gave an update on the staffing changes at HOV.

3. Tracey Webb of Donohue & Associates will be making a presentation on the analysis and observations of the 2016 clean water (I/I) flow component of the overall HOVMSD wastewater flow

HOVMSD implemented a sustainability program to maintain, monitor, and regulate flow to the WWTP. The goal of the program is to maintain or extend the longevity of the WWTP and interceptor capacity by decreasing the clear water where possible. Tracey Webb of Donohue gave a power point presentation on the analysis and observations of the clear water (I/I) flow for 2016. Performance indicators were reviewed from observations at the WWTP, the Antecedent Moisture Model, and the CMAR's of the member communities. Included in the presentation was plant performance, individual community performance summaries, and annual peak flow data.

4. John Stoeger of Stoeger & Associates will be providing an update on the Fats, Oil, & Grease (FOG) Program

John Stoeger provided the attendees with background information on the FOG program and a brief update on the progress over the past two years.
