Good morning Brian,

One thing I am working on that WDNR requested be included with the plan is a letter of compliance (with ag NR 151 standards) for all of the fields owned by HOV. I assumed that this would have been something that has been already issued but learned that it wasn't. I am working with Outagamie County on this.

This should just be a formality - in order to trade, the credit generator (in this case HOV) has to have their entire farm in compliance with 151. For HOV this means all of the parcels you own that are operated by others. The county did not think this was going to be a problem but is checking it out for us.

I am hoping to hear back today or tomorrow that everything is good with that. I will let you know if anything more needs to be done.

If I hear anything before next week, I will provide an update.

Jessica:

We are putting the agenda and supporting materials together for the next Commission meeting. Do you have anything that should get included? Any updates?
