HOVMSD FOG Control Program Update August 2017

Overview by Community

Darboy Sanitary District: There were no significant issues within the Sanitary District during August, 2017.

A total of 7 reminder letters are required and 1 site visit will be conducted.

Village of Combined Locks: The lateral that was identified as coming from Rico's Family Restaurant may actually be from an abandoned car wash. The Village will investigate the area further to determine the sources of the laterals.

Two reminder letters are required and no site visits are necessary.

Village of Kimberly: We talked to the cleaning contractor who services Kimberly Assisted Living and they agreed with the maintenance manager that the intervals between trap cleanings could be extended. We have made the adjustments to the schedule.

There is 1 reminder letter to send and 1 site will require a site visit.

Village of Little Chute: Problems were noted by the Village with grease in the laterals at the Main Event Steakhouse and Tom's Drive In. Both facilities were required to clean their laterals. We visited Tom's Drive In and found that the current manager was not following the two month cleaning schedule. We will monitor the documentation from future cleanings to see if their cleaning frequencies should be increased.

There are 2 reminder letters to send and 1 site visits is required.

City of Kaukauna: There were no significant issues within the City during August, 2017.

A total of 5 reminder letters are required and 2 site visits will be performed.
