

Operations Update

Plant Operations – Plant operations and treatment were good during the month of December.

New Employee – Recently hired a Process Control Technician; Josh Weber started on December 21st.

Polymer Future Outlook & Pricing – We've received all the polymer that was ordered for 2022.

Phosphorus Analyzer (Biostyr Effluent) – No update.

Maintenance Update

Electronic Components for PLC's/MCC's - Critical spare electronic components have been coming in. The plant is now in better shape to keep running normally than it was a few months ago.

ATAD Cleaning and Jetting of Air header – The ATAD has been cleaned and is now back to running normal.

Kevin Skogman
Director of Operations & Maintenance
