

2025 Community Updates: Interceptor System Rehabilitation

DECEMBER

- With the frigid conditions upon us, work on the Interceptor Rehabilitation Project has concluded for this season.

The crews achieved substantial progress over the past year, and the fifth and final phase of work was completed before weather brought work to a halt for the year. Changed conditions were encountered during construction along with groundwater intrusion on a few select manholes, making up a necessary phase 6. The phase 6 work will be fully evaluated after the current project has been closed out.

Learn more about the interceptor project at <https://hvmsd.org>, and reach the project team directly with comments or questions at interceptor.feedback@hvmsd.org or (833) 468-6730.

- Work on the Interceptor Rehabilitation Project has wrapped up for the season, and the team has worked diligently to restore public spaces while ensuring the long-term durability of the interceptor system. These spaces will be inspected in the spring to ensure the turf has been restored to like-condition and any additional restoration will occur if needed. Thank you for your patience and cooperation as we work to complete this project.

From all of us at Heart of the Valley Metropolitan Sewerage District, have a safe and happy holiday season!

Find out more about HVMSD's interceptor project at <https://hvmsd.org>, or reach the project team directly with comments or questions via email, interceptor.feedback@hvmsd.org, or phone, (833) 468-6730.

2025 Community Updates: Interceptor System Rehabilitation

OCTOBER

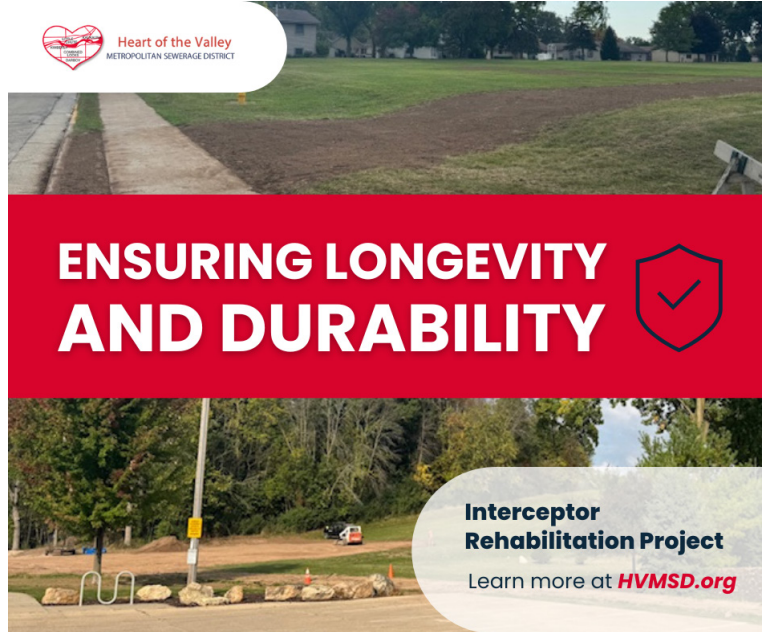

- Work continues this fall on Heart of the Valley Metropolitan Sewerage District's (HVMSD) Interceptor Rehabilitation Project! Crews are making steady progress, currently applying protective coatings to interceptor manholes and structures and restoring contractor access points in both Riverside Park and Heesakker Park.

The team is working diligently to restore public spaces while ensuring the long-term durability of the interceptor system. We thank the community for its patience and cooperation as we work to complete this project!

Learn more about the interceptor project at <https://hvmsd.org>, and reach the project team directly with comments or questions at interceptor.feedback@hvmsd.org or (833) 468-6730.

2025 Community Updates: Interceptor System Rehabilitation

SEPTEMBER

- Heart of the Valley Metropolitan Sewerage District is making key upgrades to its receiving station to ensure that infrastructure keeps pace with needs of member communities.

Improvements like this enable us to continue providing cost-effective wastewater conveyance and treatment while protecting public health, safety and the quality of the environment. Learn more about the work HVMSD does on behalf of its member communities at <https://hvmsd.org>.

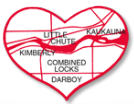

2025 Community Updates: Interceptor System Rehabilitation

AUGUST

- Crews have wrapped up work in Heesakker Park and will finish restoring the work areas in the park to their original condition. Visitors can expect the park to return to its familiar, well-maintained appearance soon, ensuring it is ready for public use. Learn more about it at <https://hvmsd.org>, and reach the project team directly with comments or questions at interceptor.feedback@hvmsd.org or (833) 468-6730.

2025 Community Updates: Interceptor System Rehabilitation

JULY

- All liner installations for the Interceptor Rehabilitation Project are now complete. With coating of the related structures underway, the project is entering its final phase. We appreciate your continued support as we work to maintain and protect the integrity of the interceptor system. To learn more about the project, visit <https://hvmsd.org>, or reach the project team directly at interceptor.feedback@hvmsd.org or (833) 468-6730.
- Crews working on the Interceptor Rehabilitation Project expect to wrap up in Heesakker Park soon. The remaining trail closure will officially reopen this month. Crews have been removing equipment from the park and are restoring it to its original state. Thank you for your patience as we completed this important project. Learn more about it at <https://hvmsd.org>, and reach the project team directly with comments or questions at interceptor.feedback@hvmsd.org or (833) 468-6730.

2025 Community Updates: Interceptor System Rehabilitation

JUNE

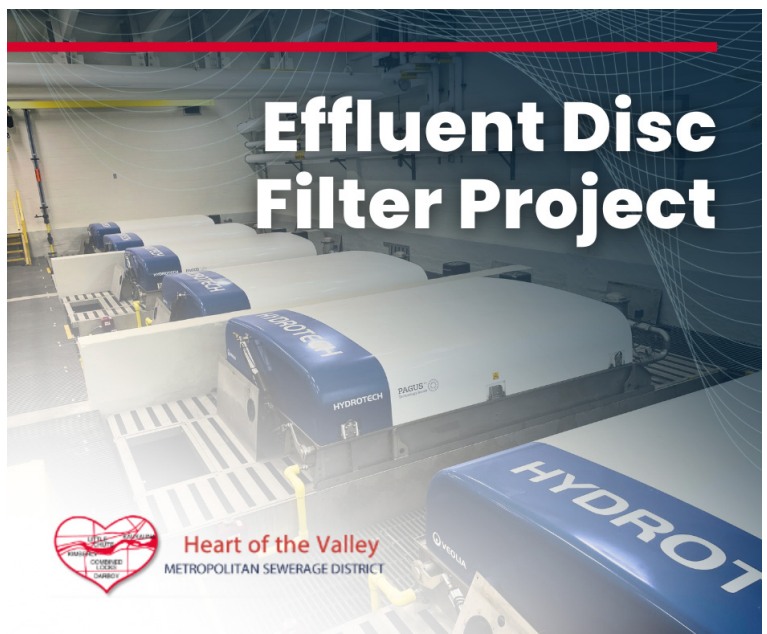

- Despite some challenging weather events in early spring, progress on the Interceptor Rehabilitation Project continues! Crews are working diligently to keep the project on track for completion later this year.

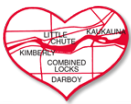

Learn more about the project at <https://hvmsd.org>, and reach the project team directly with comments or questions at interceptor.feedback@hvmsd.org or (833) 468-6730.

- Heart of the Valley Metropolitan Sewerage District's Effluent Disc Filter project is officially complete! Six new advanced filters are now up and running—helping protect local waterways by removing more phosphorus and suspended solids from treated water. Thank you to all who helped to make this project a success!

2025 Community Updates: Interceptor System Rehabilitation

MAY

- With progress well under way in 2025 for the Interceptor Rehabilitation Project, crews are currently working on lining and coating! Check out what this looks like from the first stage of the project completed in 2024 ->

Learn more about the project at <https://hvmsd.org>, and reach the project team directly with comments or questions at interceptor.feedback@hvmsd.org or (833) 468-6730.

- Crews are hard at work on the Interceptor Rehabilitation Project! In late 2024, a trail inside Heesakker Park was closed for the safety of the public while work on the project continues. The trail is on track to reopen late July. Stay tuned to see the project's progress.

To learn more about the project, visit <https://hvmsd.org>, or reach the project team directly at interceptor.feedback@hvmsd.org or (833) 468-6730.

2025 Community Updates: Interceptor System Rehabilitation

APRIL

- After a successful and productive 2024 construction season, work is ramping up again for the Interceptor Rehabilitation Project. Check out the substantial progress that has been made so far!

Learn more about the project at <https://hvmsd.org>, and reach the project team directly with comments or questions at interceptor.feedback@hvmsd.org or (833) 468-6730.

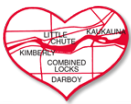

- As work continues on the Interceptor Rehabilitation Project, crews will begin work in Heesakker Park. A friendly reminder that, for the safety and convenience of the public, a trail inside the park will remain closed until approximately June.

To learn more about the project, visit <https://hvmsd.org>, or reach the project team directly at interceptor.feedback@hvmsd.org or (833) 468-6730.

INTERCEPTOR PROJECT WORK CONTINUES

For the safety and convenience of the public, a trail inside Heesakker Park will remain closed until approximately June.

2025 Community Updates: Interceptor System Rehabilitation

MARCH

- During the month of February, crews working on the Interceptor Rehabilitation Project installed a small access point to the lock inside Doyle Park. The access point will facilitate an early spring start to the project in order to keep it moving along.

Learn more about the project at <https://hvmsd.org>, and reach the project team directly with comments or questions at interceptor.feedback@hvmsd.org or (833) 468-6730.

- Work on the Interceptor Rehabilitation Project is set to ramp back up again shortly when mother nature cooperates. We are excited to continue our forward momentum on this essential work. Stay tuned for updates as the project picks up again!

To learn more about the project, visit <https://hvmsd.org>, or reach the project team directly at interceptor.feedback@hvmsd.org or (833) 468-6730.

2025 Community Updates: Interceptor System Rehabilitation

FEBRUARY

- While things with the Interceptor Rehabilitation Project have wound down for the winter, here's a look at some of the work that was completed in 2024. Work with the project will pick up again in early spring.

Learn more about the project at <https://hvmsd.org>, and reach the project team directly with comments or questions at interceptor.feedback@hvmsd.org or (833) 468-6730.

- With all the progress made in 2024, the Interceptor Rehabilitation Project is still on schedule. Work is slated to begin again in early spring of 2025, bringing us closer to completing this vital infrastructure upgrade.

To learn more about the project, visit <https://hvmsd.org>, or reach the project team directly at interceptor.feedback@hvmsd.org or (833) 468-6730.
