

Operations Update

Plant Operations – Plant operations and treatment were good during the month of June.

Bio-Solids Hauling – Soon the wheat will be coming off the fields and bio-solids hauling will begin. The new contractor plans on having hauling completed in approximately two weeks after starting.

Maintenance Update

Biostyr Blower – New blower is on order.

ACTI-FLO Mixer – The mixer is on order and should arrive soon.

Rain Gauge (Darboy) – Rain gauge is on order.

Turbine Pump #1 VFD – Still waiting on the heat sink fan retrofit kit. Should arrive the first part of August.

Heating/Air Conditioning Unit Solids Building Garage – New unit has been installed and is in operation.
