

D. Site Remediation Update

SEH completed all reviews and submitted the Site Investigation Report on behalf of the District. We cut the \$1050 check and dropped it off at the Green Bay DNR Service Center. Receipt was acknowledged by email from Denise -see attached.

Abby @ SEH has advised on timeline and next steps.

- Now that the WDNR has received the fee, the 60-day review period begins. The WDNR will provide a written letter following its review.
- The Site Investigation Report recommended that the next step be requesting case closure. The case closure request is a standard template form and supporting documentation that is required by WDNR. Please let me know if you'd like a proposal from SEH for assisting with the case closure request.

I have replied and asked for a proposal for the final case closure document. It can be reviewed and acted upon at the January meeting so we are ready to move once the DNR completes review and provides any further comments.

Subject: WDNR Site Investigation Report (SIR) Received (fee) Acknowledgement for 02-45-590936

This email confirms on 11/29/2023 the Wisconsin Department of Natural Resources (DNR) Remediation and Redevelopment (RR) Program received Site Investigation Report (SIR) Received (fee) for:

02-45-590936 HEART OF THE VALLEY MSD-SPLITTER STRUCTURE
FID: 445005220
801 THILMANY RD, KAUKAUNA

Our goal is to complete the review of your submittal within 60 days but our ability to meet this goal is dependent on the number of requests received within this period and the quality and complexity of the requests. You may contact DNR Project Manager David Neste at david.neste@wisconsin.gov or (920) 362-2072 for additional information or if you do not receive further details within 60 days from the date of this email.

Information on this cleanup project may be viewed through our public web-based system BRRTS on the WEB (BOTW) via the URL below. Please note - the visibility of some information on BOTW may be delayed up to 24 hours.
