

## Old and New Business 1-13-26

- **Hauled Waste Receiving Station** – the receiving station and all functions have been checked out and functioning as normal with its return to service. The punch list has been completed with the exception of minor exterior painting that will be performed once the weather warms up and dries out. The project has reached substantial completion and continues to move toward close out and full completion.
- **Headworks Rehab / Screening Equipment Replacement Project** – project design, project specs, and project bidding through to a recommendation for project award are within the scope of Donohue's Task order 15. The District would be prepared to bid the project in late fall this year for construction starting in Spring of 2027. Donohue and the District have scheduled a kick off meeting for January 20<sup>th</sup>.
