

Old and New Business 3-11-26

- **Filter Project** – Donohue has turned over all red lined drawings for the project. This was the final task awaiting completion with the “as built” files received and saved onto the HOVMSD server. The red line drawings were the final task that remained to be completed for the filter project. Donohue submitted the final invoice this month and the CWF will process the final reimbursement to HOVMSD for the disk filter project.
